

## **Bowman Power Celebrates 15 Years of Innovation Driven Engineering**

**17<sup>th</sup> December 2018**

[Bowman Power Group Ltd](#) (Bowman) today celebrated 15-years of operation, during which the UK-based business has made a significant reduction in engine emissions worldwide.

For 15 years their flagship Electric Turbo Compounding (ETC) products have helped customers to run more efficient generators, with reduced emissions, by recovering waste exhaust energy and turning it into electrical power.

With over 800 systems sold and 20 million field hours of operation Bowman's ETC products have generated over 650 GWh of power without burning fuel and without the associated emissions.

Paul Dowman-Tucker, CEO of Bowman, commented "I would like to give a huge thank you to all of the investors, customers and employees who have helped Bowman to grow and thrive for 15 years. I am incredibly proud of the team and look forward to our continued development and prosperity."

With their recently launched third generation system, and further investments in research and development Bowman have a good deal more to offer in the years ahead.

### **ABOUT BOWMAN POWER GROUP**

Bowman is a provider of engine efficiency solutions including the design, development, installation and ongoing maintenance of high speed electrical machines. They help customers to generate additional power, reduce emissions and reduce fuel consumption.

Their award-winning Electric Turbo Compounding (ETC) technology has been deployed worldwide, generated in excess of 620GWh of free energy and saved over 300,000 tonnes of CO<sub>2</sub>. The majority of major engine and genset original equipment manufacturers (OEMs), large independent power producers and a global leader in the rental sector have all used Bowman's technology to improve genset efficiency.

Bowman is supported by a number of leading investment companies, including [Ombu Group](#), [Fjord Capital](#) and [Octopus Ventures](#). The company is based in Southampton, UK, and employs around 60 staff.
